

AutoStop®

NetBrake

Extend the capabilities of your AutoStop Brake Meter with this powerful fleet management and report software.

NetBrake® is a vehicle database and brake test reporting software application specifically developed for use with AutoStop® Brake meters. It assists the mining and heavy vehicle industries in Australia to manage brake test records, and brake test standards and calculations for their fleets.

Also Suitable With Workshop Pro 10 Brake Meter

Brake test results from the Workshop Pro 10 can be uploaded into NetBrake, allowing for easy data management and centralised reporting.

Unique Feature

- Offers customisation of fleet reports by company or site
- Report's pass / fail for a fleet on a range of Australian standard or custom brake calculations
- Allows you to choose your preferred unit of measurement
- Store's average and peak deceleration
- Generates individual test and vehicle test history reports
- Offers reports on the last test results for each vehicle at a company or site
- Enables identification of fleet vehicles overdue or due for brake testing
- Download your Brake Meter via serial cable, USB, or Bluetooth.
- Suitable for Mining Fleets
- Compliant with AS3450/ISO3450 Australian Standard
- Suitable Products - AutoStop Maxi Brake Meter, AutoStop Heavy brake Meter, & AutoTest Workshop PRO10

Software Snapshot

Add Site Details For Better Fleet Oversight

Easily input site information to organise vehicles by location, making it simple to track brake test results across depots or job sites.

Choose Your Brake Test Method For Accurate Compliance

Select from Australian Standards or custom calculations in NetBrake to see if each vehicle meets braking performance requirements and is compliant with your chosen testing method.

Generate Clear, Detailed Brake Test Reports

NetBrake automatically compiles all essential information into one easy-to-read report, including:

- Test results and pass/fail status
- Vehicle details
- Brake tester details

This makes it simple to review, share and meet compliance requirements with confidence.
