AUSTRALIAN MADE AND OWNED

AutoStop®

Suspension Meter2

USB ENABLED

Light & 4WD vehicles | Motorcycles | Heavy vehicles

The AutoStop Suspension Meter2 is a portable suspension testing solution designed to objectively assess shock absorber performance and identify worn suspension components. Ideal for workshops, inspectors and automotive professionals, it measures damping ratio and sprung-mass movement to deliver fast, repeatable results that support safer vehicle operation and more informed maintenance decisions.

Compliant with:

- All Australian state and territory regulations
- MOT approved and connected
- SANS 1589

Why Choose The AutoStop Suspension Meter2

- Detects worn shock absorbers missed by visual inspections
- Objective, repeatable suspension testing
- Lightweight portable design for on-site testing
- Stores 100 results with USB-C and Bluetooth transfer
- Backed by local support, calibration and service in Melbourne

Suspension Testing in 3 Easy Steps

1. **Attach Meter**
   Secure the AutoStop Suspension Meter2 to the vehicle body near the wheel arch. Select the test wheel being tested, for instance ‘front left’.

2. **Run Test**
   Drive approximately one metre and brake firmly until the vehicle stops. The AutoStop Suspension Meter2 automatically measures suspension performance.

3. **Review Results**
   View the suspension rating immediately on screen and save, print or upload the results for future reference.

Calibration interval: 12 months | **Warranty:** 12 months

Note: Outer appearance and specifications are subject to change without prior notice

Standard Inclusions

- USB-C download and charging cable
- Calibration Certificate

Optional Upgrades

- AutoTest Bluetooth Printer
- PC software for test download and reporting

Want to Print Tangible Results Every Time?

Get the AutoTest Bluetooth Printer

- Pair with the AutoStop Suspension Meter2 via Bluetooth
- Instantly print test results

Product Specifications

Physical Characteristics

- **Weight:** Less than 500g
- **Dimensions:** 90 × 200 × 35mm
- **Display:** 128 × 64 graphical LCD
- **Keypad:** 12-button tactile membrane keypad

Measurement Performance

- **Measurement Method:** Damping ratio and sprung-mass movement
- **Accelerometer Accuracy:** ±2%
- **Resolution:** 1%

Data Storage & Connectivity

- **Storage Capacity:** Up to 100 vehicle test results
- **Connectivity:** USB-C and Bluetooth

Power

- **Power Source:** Rechargeable lithium polymer battery
- **Operating Time:** Over 24 hours continuous use
- **Auto Shut-off:** 10 minutes

Operating Conditions

- **Operating Temperature:** -10°C — 55°C
- **Charging Temperature:** 0°C — 45°C
- **Humidity Range:** 25% — 85%
