Brake Fluid Tester

- Light & 4WD vehicles
- Forklifts
- Heavy vehicles
- Airport vehicles
- Farming & agricultural vehicles
- Mining vehicles

The AutoStop Brake Fluid Tester is a portable brake fluid testing solution designed to quickly assess brake fluid condition by measuring its boiling point. Ideal for workshops, technicians and automotive professionals, it helps identify moisture-contaminated brake fluid in less than a minute, supporting safer vehicle operation and informed brake system maintenance decisions.

Compliant with:

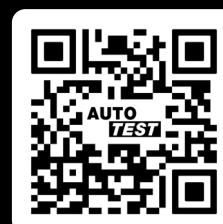

- Australian Design Rule 31/04 — 2017
- All Australian state and territory regulations
- MOT approved and connected
- SANS 1589 & 10047

Why Choose The AutoStop Brake Fluid Tester

- Fast and accurate brake fluid testing in under one minute
- Measures boiling point to identify moisture-contaminated fluid
- Suitable for all grades of brake fluid, including racing fluids
- Simple one-button operation with guided LCD instructions
- Backed by local support and service in Melbourne

Brake Fluid Testing in 3 Easy Steps

- 1 Connect Tester**
Start the vehicle and connect the tester to the battery. Insert the probe into the brake fluid reservoir, ensuring the sensor is fully submerged in the fluid.
- 2 Run Test**
Press the test button and wait approximately 30 seconds while the AutoStop Brake Fluid Tester measures the brake fluid boiling point.
- 3 Review & Store**
Review the boiling point result to assess brake fluid condition. Carefully remove the probe, wipe it clean with a cloth, replace the protective cap, and disconnect the battery leads. Do not touch the probe immediately after testing as it may be hot.

Warranty: 12 months

Note: Outer appearance and specifications are subject to change without prior notice

Standard Inclusions

- ✓ AutoStop Brake Fluid Tester
- ✓ Battery connection leads with clamps
- ✓ Probe protective cap
- ✓ Declaration of Conformity

Product Specifications

Measurement Performance

- Measures brake fluid boiling point
- Results in less than 1 minute
- Suitable for new, used and racing brake fluids
- **Maximum Temperature:** up to 320°C

Display

- LCD display
- Guided on-screen test instructions

Power

- 12V vehicle battery powered

Operation

- One-button operation
- Maintenance-free design
- No consumables required
