AUSTRALIAN MADE AND OWNED

AutoTest®

Bluetooth GPS CE USB ENABLED

GPS Roadworthy Kit

- Light & 4WD vehicles
- Heavy vehicles
- Buses & transit vehicles

The AutoTest GPS Roadworthy Kit combines three essential inspection tools in one portable package, helping inspectors perform accurate and compliant vehicle safety assessments wherever they work. Featuring the AutoStop Maxi GPS, AutoLight Magnetic and AutoTest Headlight Align, it provides a complete solution for brake testing, tint measurement and headlight alignment, with GPS location recording for enhanced traceability and reporting.

Compliant with:

- All Australian state and territory regulations

Why Choose The AutoTest GPS Roadworthy Kit

- Three essential roadworthy inspection tools in one package
- Supports brake, tint and headlight compliance testing
- GPS location recording for enhanced traceability and audit confidence
- Ideal for mobile inspectors and on-site vehicle inspections
- NATA-traceable calibration for confidence in test results
- Backed by local support, calibration and service

Learn More About The AutoTest GPS Roadworthy Kit

What's Included In The GPS Roadworhy Kit

AutoTest Headlight Align

Enables precise headlight alignment and beam assessment across a wide range of vehicle and headlamp types to support roadworthy compliance and safer driving conditions.

AutoStop Maxi GPS

Enables accurate brake performance testing and GPS location recording to support roadworthy compliance, audit traceability and efficient vehicle inspections.

AutoLight Magnetic

Provides quick, hands-free window tint testing using integrated magnetic alignment for efficient and repeatable compliance checks.

Note: Outer appearance and specifications are subject to change without prior notice

Headlight Align Specifications

- **Headlamp centre height:** 300-1400mm
- **Luminous intensity range:** 0-100,000cd
- Compatible with LED, XENON, high beam, low beam and fog lamps
- Integrated laser positioning system
- **Power supply:** 9V DC battery
- **Weight:** 26kg
- **Calibration interval:** 24 months

Beam Alignment in 3 Easy Steps

1. Position the unit using the integrated laser alignment system.
2. Measure headlamp alignment and light intensity.
3. Adjust and verify the final headlight position.

AutoLight Magnetic Specifications

- **Measurement range:** 0-100% VLT
- **Accuracy:** ±3%
- **Resolution:** 0.1%
- Integrated magnetic alignment
- **Power supply:** 2 × 9V batteries
- **Weight:** 450g
- **Calibration interval:** 12 months

Tint Testing in 3 Easy Steps

1. Position the meter on the vehicle glass using the magnetic alignment system.
2. Press the test button to measure visible light transmission (VLT).
3. Review the displayed VLT percentage for compliance.

Maxi GPS Specifications

- **Brake testing:** service and emergency
- **Load cell range:** 0-1000N
- **Accelerometer range:** 0-1.5g
- Integrated printer
- **GPS positioning:** GPS, GLONASS and Galileo compatible
- **Connectivity:** Bluetooth and USB
- **Calibration interval:** 24 months

Brake Testing in 3 Easy Steps

1. Secure the brake meter in the vehicle and enter the test information.
2. Accelerate to the required speed and perform the brake test.
3. Review, print and save the results, including GPS location data.
