

Workshop Pro

✓ Light & 4WD vehicles

✓ Forklifts

✓ Airport vehicles

✓ Farming & agricultural vehicles

The AutoTest Workshop Pro is a portable, tablet-based brake testing and workshop management solution designed to support roadworthy inspections across a wide range of vehicle types. Ideal for workshops, inspection stations and automotive professionals, it delivers accurate brake performance analysis, GPS location recording and streamlined digital reporting to support compliance requirements.

Compliant with:

- All Australian state and territory regulations
- MOT approved and connected
- ECE Regulation 13
- SANS 1589 & 10047
- FMVSS 571

Why Choose The AutoTest Workshop Pro

- Streamlines roadworthy inspections and digital reporting
- Connects directly with government reporting platforms
- Records GPS location data for enhanced traceability
- Measures MFDD, stopping distance, test speed and tri-axial deceleration
- Automatically compensates for slope and installation angle
- Stores over 1,000 test records with Wi-Fi and USB connectivity
- Expandable platform for additional workshop testing applications available
- Backed by local support, calibration and service in Melbourne

Brake Testing in 3 Easy Steps

1 Position & Setup

Secure the Workshop Pro on the passenger seat or floor. Enter the required vehicle and examiner information, and select the appropriate test.

2 Conduct the Test

Accelerate to the required test speed and apply the brakes.

Review Results

- 3 Instantly review results including deceleration, stopping distance, MFDD and test speed, then save or transfer records for reporting and compliance purposes.

Calibration interval: 12 months

Warranty: 12 months

Note: Outer appearance and specifications are subject to change without prior notice

- ✓ Calibration Certificate
- ✓ 1 year Brake Pro license

Optional Upgrades

- + AutoStop Pedal Effort Sensor (NSW & ACT compliance requirement)
- + Motorcycle and quad bike suction cup mounting kit
- + Additional Workshop Pro applications:
 - Light Pro - window tint testing
 - Shock Pro - suspension testing
 - Emission Tester

Located in ACT or NSW?

You will require the AutoTest Workshop Pro Pedal Kit!

- AutoTest Workshop Pro
- AutoTest Bluetooth Printer
- AutoStop Pedal Effort Sensor

Product Specifications

Physical Characteristics

- Weight: 530g
- Dimensions: 168 × 242 × 8.1mm
- Protection Rating: IP65

Accelerometer

- Range: 0–1.5g
- Resolution: 0.01g

Display

- 10.1" IPS touchscreen
- Resolution: 1920 × 1200

Storage & Connectivity

- Storage: 16GB onboard storage
- Test Capacity: 1,000+ test results
- Interfaces: Wi-Fi, Bluetooth and micro USB
- Memory Expansion: microSD slot (up to 128GB)

Power

- Battery: 4850mAh Li-Po rechargeable battery
- Operating Time: Up to 8 hours continuous use
- Capacity: 500+ tests per charge

Positioning

- GNSS: GPS, GLONASS and Galileo compatible

Calibration

- NATA (ISO 17025)
- Allows on-site calibration by workshop personnel in all Australian states and territories, except NSW
