

AutoStop[®] Suspension Meter

AutoStop Suspension Meter

Is a compact, battery-powered, hand held shock absorber tester that uses both the "Rebound Method" and "Damping Ratio." Monitors the vertical sprung mass movement of the vehicle to determine the performance of individual shock absorbers.

- 12-button phone keypad allows customer and vehicle details to be added immediately.
- Installed in seconds on the panel above the wheel being tested.
- Large display screen allows immediate analysis of results including graph.
- Capable of storing results of up to 100 vehicles
- Data logging download capability via USB interface
- Immediate print capability via optional wireless printer
